

# Gary Moore, Texas Strut

One-two-three-four  
Let me tell you about the Texas blues

I went down south to Dallas  
To hear those cowboys wail  
Came across that Billy Gibbons  
Ridin' on that ZZ trail

I just can't lose with the Texas blues  
I said I just can't lose with the Texas blues  
The Texas blues

Got myself in Double Trouble  
When I saw that Texas Flood  
Stevie said The Sky Is Crying  
Superstition's in his blood

I just can't lose with the Texas blues  
I said I just can't lose with the Texas blues  
The Texas blues  
How-how-how-how

Come on!

I heard that Houston Twister  
He could run you off the tracks  
When he plays that Cold Cold Feeling  
You get the shivers down your back

I just can't lose with the Texas blues  
I said I just can't lose with the Texas blues  
The Texas blues  
A-how-how-how-how

Well, I'm going back to Dallas  
Won't go waitin' for no bus  
Ridin' off into the sunset  
You won't see my heels for dust

I just can't lose with the Texas blues  
I said I just can't lose with the Texas blues  
I said I just can't lose with the Texas blues  
And I just can't lose with the Texas blues  
The Texas blues  
Texas blues  
A-how-how-how-how
