

Gene Watson, The Sun Never Comes Up Again

Tonight you're saying you love me
And this is where it all begins
But if you don't mean it I'm hoping
The sun never comes up again

We finally shared all our feelings
Feelings we felt for so long
If this is our last night together
I hope it stays dark from now on

The world would stop turning
Fire would stop burning
And leaves wouldn't fly in the wind
If you don't love me I'm hoping
The sun never comes up again

The world would stop turning
Fire would stop burning
Leaves wouldn't fly in the wind
If this is our last night I'm hoping
The sun never comes up again
