

George Ducas, My World Stopped Turning

My world stopped turning when you walked away
My heart's still breaking both night and day
The sun has stopped shining seasons don't change
And my world stopped turning when you walked away

I never knew how I needed you I couldn't see what you meant to me
But now that you're gone there's no way to carry on
My world stopped turning...

[guitar - fiddle]

The sun has stopped shining...
Yes my world stopped turning when you walked away
