George Ducas, My World Stopped Turning

My world stopped turning when you walked away My heart's still breaking both night and day The sun has stopped shining seasons don't change And my world stopped turning when you walked away

I never knew how I needed you I couldn't see what you meant to me But now that you're gone there's no way to carry on My world stopped turning...
[guitar - fiddle]
The sun has stopped shining...
Yes my world stopped turning when you walked away
