

# George Strait, She Used To Say That To Me

Let's take a rest  
Your kisses take my breath  
You are the best  
It's never been like this

[Chorus:]  
She used to say that to me  
Over and over so sweet  
She'll tell you she'll never leave  
She used to say that to me

It thrills you so  
When she whispers soft and low  
"Please hold me tight  
I need your love tonight"

[Chorus]  
"I'm yours," she sighs  
And she means it at the time  
But someday she'll go  
If you're wonderin' how I know

She used to say that to me  
Over and over so sweet  
She'll tell you she'll never leave  
She used to say that  
She used to say that to me  
Over and over so sweet  
She'll tell you she'll never leave  
She used to say that to me

She used to say that to me
