George Strait, She Used To Say That To Me

Let's take a rest Your kisses take my breath You are the best It's never been like this

[Chorus:]
She used to say that to me
Over and over so sweet
She'll tell you she'll never leave
She used to say that to me

It thrills you so When she whispers soft and low "Please hold me tight I need your love tonight"

[Chorus]

"I'm yours," she sighs And she means it at the time But someday she'll go If you're wonderin' how I know

She used to say that to me Over and over so sweet She'll tell you she'll never leave She used to say that She used to say that to me Over and over so sweet She'll tell you she'll never leave She used to say that to me

She used to say that to me
