

# Gezim Gashi, Trigger

sometimes in life people come and go  
but they truly changed all our eyes for sure  
realize, be thankful for those moments hey you'll need them

don't be mad  
screw that  
its not ur fault  
its only a lesson which proves how to get stronger  
put a smile its time to appreciate what you got

Isn't it crazy how things turn out to be  
(yeah) do you see what I mean  
The one person you'd take a bullet for  
tends to be the one behind the trigger!

Isn't it crazy how things turn out to be  
do you see what i mean  
The one person you'd take a bullet for  
tends to be the one behind the trigger

don't believe in anything you hear  
its easy to talk but actions are  
everything, I've been in your place  
so stop and get up

don't be mad  
screw that  
its not ur fault  
its only a lesson which proves how to see reality  
put a smile its time to appreciate what you got

Isn't it crazy how things turn out to be  
(oh oh) do you see what I mean  
The one person you'd take a bullet for  
tends to be the one behind the trigger!

Isn't it crazy how things turn out to be  
do you see what i mean  
The one person you'd take a bullet for  
tends to be the one behind the trigger

its never (never) easy to loose  
or even (even) to forget  
you didn't think it would be like this (like this)  
but destiny came in and made you a big favour  
be thankful your better off look forward no matter what  
life goes on yes it will ... just remember  
anybody could be the one behind the trigger

Isn't it crazy how things turn out to be  
do you see what I mean  
The one person you'd take a bullet for  
tends to be the one behind the trigger!

Isn't it crazy how things turn out to be  
do you see what i mean  
The one person you'd take a bullet for  
tends to be the one behind the trigger

oh oh
