

# Ghost Dance, Mirror Blind

I blow the dust off another day  
The past never far away  
And I see your eyes burning on

I stare at the naked flame  
Cant tear myself away  
And I see your eyes burning on

Ive tried telling myself that its no true  
But I know what I feel, can you feel it too  
Oh oh oh say you do

Cant you see its time  
Im burning up inside

Stop, look in the mirror  
Is it so hard to believe  
Stop, look in the mirror  
Or are you too blind to see

Broken glass on an empty road  
I see the past everywhere I go  
And I see your eyes burning on

You look in the glass but all you finds  
Another mask to hide behind  
Oh oh oh mirror blind

Whatre you trying to hide  
Dont turn away this time

Stop, look in the mirror  
Is it so hard to believe  
Stop, look in the mirror  
Or are you too blind to see

Cant you see its time  
Im burning up inside

Stop, look in the mirror  
Is it so hard to believe  
Stop, look in the mirror  
Or are you too blind to see
