

Giles, Giles And Fripp, How Do They Know

When you stop and ask, "Which way do we go?"
And they all say, "Follow me"
How do they know?

So you follow on and stumble and fall
And a voice says, "Ah, who's he?"
How do they know? How do they know?

Now you're beginning to realize
The first will not be the last
Ask them please not to go so fast
'Cause the dust is sucking your eyes
Dust is sucking your eyes

Take yourself away and sit for a while
And the band goes marching on
How do they know? How do they know?

Now you're beginning to realize
The first will not be the last
Ask them please not to go so fast
'Cause the dust is sucking your eyes
Dust is sucking your eyes

When you stop and ask, "Which way do we go?"
And they all say, "Follow me"
How do they know?

So you follow on and stumble and fall
And a voice says, "Ah, who's he?"
How do they know? How do they know?
How do they know? How do they know?
