

Giovanca, She Just Wants to Know

She just wants to know
What she should do to make him
Love her better
/2x

She's just standing there again
Whith hurting hopeful eyes again
Feeling insecure again
He says the girl is just a friend
She's acting like a fool again
He walks away from her again

Now why, can't he see that
She tries so hard to be
All that he needs?
Why, does together with him means
Being alone, on her own?
Can someone just take her home?
And tell her what she's doing wrong

She just wants to know
What she should do to make him
Love her better
/2x

She's just trying to understand
His eye's are wandering off again
Seeking something new again
He says: "this is who I am"
She's asking more then he can tell
He drives away from her again

Now why, can't he, won't he just make it go away?
All of the pain
Why, is he loosing his heart so many times a day?
To the sweet scent
Of a world outside her love
Which tells her she is not enough

She just wants to know
What she should do to make him
Love her better
/2x

Together with him means,
together with him means
Together with him means being alone

She just wants to know
what she should do to make him
love her better
She just needs to know
that nothing's gonna make him
love her better
