

Giulia, Karolina

1.

When everybody's on the floor
I take a bag, I put them all
I see the lights, I hear the sound
I gotta take the back door
I run and hide, I have no time
Outside the rain it starts to fall
Ignore the cold, ignore them all
I'm gonna be a rich girl

Chorus:

Karolina-rolina
Tell me what have you done?
I don't know
Why you always have to go
Karolina-rolina
Where are you gonna run?
Don't you know?
Your wanted picture is on every wall

2.

I check into a small hotel
Turn off the lights and lock the door
I change my hair, I change my clothes
Got running shoes, sun glasses on
A fake ID, a brand new life
I'm ready now to hit the road
Behind the wheel, I think of him
But I still drive to Mexico

Bridge

Boy you know I meant to call you
To tell you that I love you
Bout my love I never was a liar
