

# Glen Campbell, It's Been So Long Darling

It's been so long darling since I had to go away  
It's been so long darling and I'll never forget that day  
Although you never mentioned it you cried the whole day long  
It's been so long darling but now I'm coming home  
It's been such a long time darling but it won't be long now  
It's been so long darling and I've kept every vow  
Oh I hope that you'll be waitin' as you did in days gone by  
It's been so so long darling please don't blame me if I cry  
It's been so long so long darling since I gazed into your eyes  
It's been so long so long darling do you really realize  
That just the thought of seeing you it scares me through and through  
It's been so long so long darling since I had a kiss from you  
(It's been so it's been so long darling)
