

# God Machine, Ego

Ego is beast and ego is evil  
Ego is beast and ego is evil  
Ego is beast and ego is evil but ego knows best  
Ego is beast and ego is evil  
But ego knows best at least she says so  
I am one and I am all but sometimes  
Sometimes I am nothing at all  
And you know you know  
My little insecurities  
Like someday I may fade away  
I can't find my way to heaven  
I can't find my way to heaven  
Who's at you your back door  
Calling my name  
And who walks on these floors  
And who walks on these floors  
Who's at the back door  
Calling my name  
And who walks on these floors  
Pass the red light  
Pass the red light  
Red light  
Ego is beast and ego is evil
