

Godfathers, She Gives Me Love (The Godfathers)

Don't claim to understand her
I wonder what she's doing with me
Don't know what she does with the rest of her time
But she gives it to me for free
She gives me love
She gives me love
She never takes my money
But she always steals my time
She's the kind of a girl that if you gave her the world
She'd say it wasn't worth a dime
She gives me love
She gives me love
It's not easy to explain it
The effect she has on me
Make a dumb man talk and a blind man see
That sweet little mystery
She gives me love
She gives me love
She gives me love
She gives me love
