

Godsmack, Mama

Oh mama what have I gone and done?
With all these years that I've been gone
My life changed me way too fast
I don't know if I could last

Help me find my way
And mama save me
Help me find today
Mama please come
And save me, oh

Oh mama if you
Could've only seen
Everything I've done
And where I've been
If only one
Thing I would ask
Why did you let me
Grow up so goddamn fast?

Help me find my way
And mama save me
Help me find today
Mama please come
And save me, oh

There's nothing more
That you can do
It's gone beyond what
You can't help me through
An emptiness has covered me
Oh mama come and save me

Help me find my way
And mama save me
Help me find today
Mama please come
And save me, oh
Help me find my way
And mama save me
Help me find today
Mama please come
And save me, oh

There's nothing more
That you can do
It's gone beyond what
You can't help me through
An emptiness has covered me
Oh mama come and save me
Oh mama come and save
Oh save me... no!
Oh please mama save...
