

Gojira, Hold On

I've been grinding and grinding
O!
I can have mercy
I give you my life
O!
Sin of the sun

I've been rowing and rowing
No sign of land so far in the flood
I've been through fire
And wind I am hanging
Feet in the depth

Drowning all day long
In an ocean of stress
Gotta find a safety raft
Another wave is striking down

Hold on! Fight
We are merely grabbing on to..
Hold on! Fight
Unconscious ride around the core

In a matter of time
You're out in the open
You shall prove yourself in the bitter end
But for now, brace yourself!

Hold on! Fight
We are merely grabbing on to..
Hold on! Fight
Unconscious ride around the core

When the witness death you understand your demise
And you may embrace your destiny the fate of all
And maybe when we die we rise
High, find a ground
As we return where we belong

Elders, deep under
Shelter, land!

Fight!
We are merely grabbing on to life
Fight
One last attempt to break the code
Hold on! Fight
We are merely grabbing on to..
Hold on! Fight
Unconscious ride around the core
Hold on! Fight
Hold on tight!
Hold on! Fight
Hold on tight!
