Golden Earring, Circles

From the Album: * Keeper of the flame

I'm up & amp; you're kinda low Are you provin', that you don't want me no more Mixed up and I'm all alone And I'm ridin' around in circles I've been up - I've been way down low I've been up & amp; down that road before I've been up & amp; down that road before I've been ridin' around in circles Ridin' around in circles. Yeah, yeah! refrein: Everyone knows the way, everybody's right And everyone knows' where eveybody's drivin' at I've been right, I've been wrong I've been uptown and I've been pitifull I've been racked, I've been sold I've been ridin' around in circles High - low - I've been down the streets where I once met you I've been hot, I've been really really cold I've been ridin' around in circles Ridin' around in circles. Yeah, yeah! refrein: Everyone knows the way, everybody's right And everyone knows' where eveybody's drivin' at Don't mind that I don't know where to go Every night I've been dreamin' that I'm not alone Everywhere I go... Early in the morning, late at night In the evening - All day by your side! Yeah! I give up - no more I've been up to it & amp; I've been here before I've been broke - for a loan I keep ridin' around in circles You look beautiful baby Walkin' down the sidewalk with that chip upon your shoulder I've bee hidin', I've been searchin' I've been ridin' around in circles refrein: Everyone knows the way, everybody's right And everyone knows' where eveybody's drivin' at You've been hidin', I've been ridin'
