

Goo Goo Dolls, Beautiful Lie

Wake up□
We had the time of our lives□
We lost the rest of our minds high
And all your make up□
Faded down from your eyes□
And I could see what's behind

Where did you go□
Where did you come from□
How could you be so cruel this time
Where did you go
Where did you come from□
How could you be such a beautiful lie

Dunno why□
I tried
Cuz now I'm dying inside□
You don't know what□
It's like□
To live a life in rewind□
And you're such a beautiful lie□
You're such a beautiful lie□
And all the pain□
And shame□
It's hard enough to deny□
You can't erase
The stain
You left in place of my life□
And you're such a beautiful lie
You're such a beautiful lie□

Break up
Before we're breaking down
50 feet underground
Some things just stay stuck
Make no sense and no sound□
You never said it out loud

Where did you go□
Where did you come from□
How could you be so cruel this time
Where did you go
Where did you come from□
How could you be such a beautiful lie
