

Gorillaz, Highway (Under Construction)

Well, I'm building a highway back,
Back to the heart of things
No love left to walk back,
Back to the heart of things

So, I'm building above and back
All our city gone red
When I get it all from you,
I'm gonna get it all true, true

It's cold when I say goodbye
People holding a meaning, why?
But you never let the car get in
Howling on the sound of swim

Did you want a wind and a sail
It would take a boat
All of the [Incomprehensible]
Say what you want, don't bring
Anything back to me

Cause I'm old, I will say goodbye
Hoping to run out of my lie
If I get a lot from you
I'll make it all come true
