Get up If you wanna survive Get oh so alive In your life Everything falling out the sky on top of you Now what you do Fill yourself up now It's the love of your life [?] on me All I know Before it's gone I always feel scared in the town And nothing's wrong What's the matter with me? What's the matter with me? Give up If you wanna survive Pick the sun back up You got to get on the song lowly What's the point? It's funny 'til you left to kill yourself In this town So what's the matter with me? What's the matter with me? What's the matter with me? What's the matter with me?
