[Intro: Karina]

Incoming!

You must step back

[Verse 1: Karina, BoA, Seulgi, Taeyeon]

Who do you think you're looking at?

How dare you go over my head?

You'd better shut your mouth and stand back

Or else give it a go

Try climbing your way up here

Did he have a crush on you?

When we played like a baby

When we were young

I'm sure you flirted some, flirted some, flirted some, quite some bit

Playing with your childhood memories, is it that fun?

[Pre-Chorus: Wendy, Winter, All]
My man is on another level (Level)
You can't even dream about this level (Level)
The one that got me next level (Level)
As you can see, another level
Don't bring it to me
Get outta my way

[Chorus: All, BoA, Seulgi]
Take your hands off of mine
(Step back, step back)
It won't be enough even if you're born again
(Step back, step back)
You're like a poison to the good boys
They become lonelier as they drink more
He's sick and tired everyday
Don't you cross it, borderline
(Step back, step back)
This isn't the place for you
(Step back, step back)
What you tried to hide by weighing was
Your unrestrainable light heart
He's sick and tired everyday

[Verse 2: Hyo, Karina, Winter & Taeyeon, BoA, *Wendy*]
Ayy, does doing that make him yours?
Listen to me
There's a lot more girls like you than you think
True or not, the world still goes around without you, around
You gotta get a good mind
Are you looking for fun?
Looking for some fun again?
Approach with a favor
Calculation is already over
Like you've found a treasure ship above the ocean
Making a move
Start the transaction

[Pre-Chorus: Seulgi, Taeyeon, All]
You can't even stand this level (Level)
The world is our stage, our level (Level)
It's only possible next to me, level (Level)
As you can see, another level
Don't bring it to me
Get outta my way

[Chorus: All, Winter, Taeyeon, Wendy]
Take your hands off of mine
(Step back, step back)
It won't be enough even if you're born again
(Step back, step back)
You're like a poison to the good boys
They become lonelier as they drink more
He's sick and tired everyday
Don't you cross it, borderline
(Step back, step back)
This isn't the place for you
(Step back, step back)
What you tried to hide by weighing was
Your unrestrainable light heart
He's sick and tired everyday (He's sick and tired)

[Bridge: BoA, Winter, Wendy, Karina, *Hyo*, (Seulgi)]

(Bridge)
All those days
I've been together with him
Even with your playful flirting
I won't be swayed
Exchanging an emotion that we call love is too much (Ayy)
Now stop and get lost
Go back to your world
Don't delude yourself again
Boys are the same
All eyes on me when I appear
Everywhere there's a flash
Take pictures, take pictures, take pictures, pose
*Imagination is your freedom
Before you start doing things
From the inside build up
The further you go, you'll get hurt*
Girls, bring it on

[Break: All, Seulgi, Taeyeon]
Step back, step back, step back, silly girl
The only girl who live in a dream
Step back, step back, step back, silly girl
Please stand out of my way, yeah
Don't bring it to me
Get outta my way

[Chorus: All, Wendy, BoA]
Take your hands off of mine
(Step back, step back)
It won't be enough even if you're born again
(Step back, step back)
You're like a poison to the good boys (Ayy)
They become lonelier as they drink more
He's sick and tired everyday
Don't you cross it, borderline
(Step back, step back)
This isn't the place for you
(Step back, step back)
What you tried to hide by weighing was (Woo!)
Your unrestrainable light heart
He's sick and tired everyday
