

GOT7, Breath (□ □ □ □ □ □)

Ej, yeah
That's right

Turn the light on
The moment you came to me

The lights were dying inside of me
You've filled it up
Now we're breathing the same breath

it's getting blurry
the line between you and me
breathe in
breathe out
you and me

you help me breathe
Deeper and deeper

You make me fly high

I feel it
Feel it

You help me breathe
My everything changes because of you
You keep me alive
I can feel it
I can feel your love
You help me breathe
You help me fly high

The feeling's hard to describe
Feels like i am walking on a cloud
Like a dream

PLEASE BE MORE than a fleeting dream
Something more meaningful
You are so amazing

The lights were dying inside of me
But you've put warmth in my heart
You've filled it up
Now we're breathing the same breath

it's getting blurry
the line between you and me
breathe in
breathe out
you and me

you help me breathe
Deeper and deeper

You make me fly high

I feel it
Feel it

You help me breathe
My everything changes because of you
You keep me alive
I can feel it
I can feel your love

You help me breathe
You help me fly high
