

Gothminister, We Come Alive

The end
The end
We come alive
The end
You will be one of us all in the end

We come alive
We crawl around your houses
We come alive
We live under your bed
We come alive
And then we will control you
You will be one of us all in the end

We come alive
We crawl around your houses
We come alive
We live under your bed
We come alive
And then we will control you
You will be one of us all in the end

We come alive
Darker than before
We come alive
The black mass is here
We come alive
Lock up all your doors
When we are here
The end is near

We come alive
We crawl around your houses
We come alive
We live under your bed
We come alive
And then we will control you
You will be one of us all in the end

We come alive
We crawl around your houses
We come alive
We live under your bed
We come alive
And then we will control you
You will be one of us all in the end

The end
The end
We come alive
The end
You will be one of us all in the end

The end
The end
We come alive
The end
You will be one of us all in the end

We crawl around your houses
We come alive
We live under your bed
We come alive
And then we will control you

You will be one of us all in the end

We come alive
We crawl around your houses
We come alive
We live under your bed
We come alive
And then we will control you
You will be one of us all in the end

We come alive
We crawl around your houses
We come alive
We live under your bed
We come alive
And then we will control you
You will be one of us all in the end
