

# Grandaddy, El Caminos In The West

Doo doo doo

So there's my baby  
Laughing at me in the sun  
Wonder if I'm the weaker one  
I feel so far away from home  
Always so far away

The Pacific will pacify us when we're done  
If only we weren't always spun  
I feel so far away from home  
Always so far away

From El Caminos in the west  
All collapsed and futureless  
I'll paint the words a simple wish  
For peace of mind and happiness  
El Caminos in the west  
We're all collapsed and futureless  
I'll paint the words a simple wish  
For peace of mind and happiness

Doo doo doo

Here comes the chaos  
Perfectly on time again  
Is it ever gonna end  
I feel so far away from home  
Always so far away

The demolition still can be a lot of fun  
Someone should tell me that I'm done  
I feel so far away from home  
Always so far away

From El Caminos in the west  
All collapsed and futureless  
I'll paint the words a simple wish  
For peace of mind and happiness  
El Caminos in the west  
We're all collapsed and futureless  
I'll paint the words a simple wish  
For peace of mind and happiness

Doo doo doo
