

# Grandaddy, Volvo In G

I want my old seventy-four volvo  
With cracked exhaust made a fault  
I think I left myself in the trunk

Windows rolled down  
Driving her around  
And listening to Metallica  
I think I left myself in the trunk

First car I've ever bought  
I sure stared at it a lot  
Then I sold it like an idiot  
I think I left myself in the trunk  
I think I left myself in the trunk
