

Grave Digger, All For The Kingdom

I am a son of the clan MacLean
I am a warrior skilled to fight
I am a soldier for Scotland's pride
I would never give up before I die

My journey started long time ago
At Carham I fought for the king like hell
Many died at the River Tweed
We won Lothian, blood runs deep

Eye to eye and back to back
United we march, ready for attack

All, all for the kingdom
Together we fall and forever we stand
All, all for the kingdom
We fight for the right, for the right to survive
For the king, all for the land
All for one

Malcom the second called us to arms
Fearless we fought 'til the final breath
Fire burned high as we forged a kingdom
Triumph we brought, forever dominion

Eye to eye and back to back
United we march, ready for attack

All, all for the kingdom
Together we fall and forever we stand
All, all for the kingdom
We fight for the right, for the right to survive
For the king, all for the land
All for one

All, for, the, kingdom
All, for, the, kingdom
All for one

Eye to eye and back to back
United we march, ready for attack

All, all for the kingdom
Together we fall and forever we stand
All, all for the kingdom
We fight for the right, for the right to survive
For the king, all for the land
All for one

All for one
