

# Grave Digger, Heart Attack

Shape your eyes and watch them burn  
There's always fire 'round the night  
I want to grown into yourself  
Wiping out the wise below  
Watch you change into a star  
I want to gaze into a mirror  
Shape your eyes and watch them burn  
There's always fire 'round the night  
Always fire where you're going to  
Heart attack, heart attack  
Heart attack, heart attack

Watch your eyes and watch them burn  
Fire's always 'round with you  
I want to grow into your soul  
Shape your eyes and watch them burn  
There's always fire 'round the night  
I want to crawl into a mirror  
Wipeing out the wise below  
What you know it's you're alone  
I remember everybody, too

Heart attack

Watch your eyes and watch them burn  
There's fire always 'round with you  
I want to burn into yourself  
Shape your eyes and watch them burn  
There's always fire 'round the night  
I want to crawl into yourdoor  
Shape your eyes and watchthem burn  
There's always fire 'round the night  
'Member what you'd always going to

What you blow is always fire  
Where you're bend, you're still alone  
Always fire 'part from that, it's true  
Heart attack
