Green Day, Do Da Da

Every time I'm fallin down You take the reprecussions Headaches and anxieties Advancing my frustrations Rushings of my depression Sacrifice everything Waste with me into nothing Well now you're stuck with me Stuck with me Stuck with me Hand up your soul to my wrist And I'll vow my trust to you Moving here I always thought I realized you've imagined Rushings of my depression Sacrifice everything Waste with me into nothing Well now you're stuck with me Stuck with me Stuck with me

Rushings of my depression Sacrifice everything Waste with me into nothing Well now you're stuck with me Stuck with me Stuck with me
