

Green Day, Pollyanna

Rainy days and razor blades
I think it's time to pull up the shades
It's wonderful to be alive

Hurricanes and headlines
Standing in another line
It's wonderful to be alive
Everything is gonna be alright

Don't let them hett you down
Don't let them push you around
We're gonna take back the night
Everything's gonna be alright

Share you bread with friends you don't know
Hold the truth and never let go
Don't give up and go with you know's for real

Que sera and
C'est la vie
Everyday a jubilee
It's wonderful to be alive
