

# Green Day, Troubled Times

What good is love and peace on Earth  
What's it's exclusive?  
Where's the truth in the written word?  
Of no one reads it  
A new day dawning  
Comes without warning  
So, don't blink twice

We live in trouble times /2x

What part of history we learned  
When it's repeated  
Some things will never overcome  
If we don't seek it  
The World stops turning paradise burning  
So, don't blink twice

We live in trouble times /3x

We run for cover  
Like a skyscraper's falling down  
Than I wander like a troubled mind
