

# Greenskeepers, Vagabond

I wanna shoot you down now for the things you did  
From far away I came, got away from seeing red  
I came a long way to see you  
Such a long way to see you  
I came a long way to see you  
Now I wish you were dead, wish you were dead

I came a long way to see you; now I wish you were dead  
Such a long way to see you with a gun to my head  
I wanna shoot you down for the things you said  
Came a long way to see you; now I wish you were dead  
I came a long way to see you  
For I wish you were dead  
Such a long way to see you  
With a gun to my head

Hit me on the run, loadin' up my gun  
Blowing up the spot, hiding cause I'm hot  
Fire is my friend, marking where I've been  
Committed every sin and do it all again  
Be on the look out for the amber waves of grain (heading for your street)  
The green lady moved away and changed her name (feel my pain)

I came a long way to see you  
Now I just want to leave you  
I came a long way to see you  
Now I wish you were dead, wish you were dead  
Came a long way to see you; now I wish you were dead  
Such a long to see you with a gun to my head  
I wanna shoot you down for the things you said  
Came a long way to see you; now I wish you were dead

Feel my pain coming up from the sewers  
To the house on the hill  
I'm the boss of all bosses  
Got a license to kill  
Take, feel the love  
If the truth be told  
I'm in Liberty City and I'm outta control  
I'm outta control  
I'm in Liberty City and I'm outta control  
I'm outta control  
I'm in Liberty City and I'm outta control
