

Grey, I Love Her

Verse 1:

She said another time, another place, anytime or any place.
And though we never disagree, I think she's jealous.
She said, I love the best, I am the chase !
A moments rest, a moments pace.
And though we always disagree, I think I'm jealous.

Chorus:

I love her, oh I love her, i love her everyday.
I love thinking of her and I love it when she
says I'll never let you slip away.

Verse 2:

She often takes me for a fool at very best, or her tool to get the rest.
And what she gets, she needs the least but feels much better.
She talks of being a lovely motion picture queen and
of the scenes she'll steal on screen but any
part would drain her heart so she says never.

Verse 3:

She drives a fast Mercedes Benz, around the curves and through the bends.
And all her men she steers the same but with no limit.
she wants to live forever and a day, live it
all up in a day and given more time says she hopes to do it better.
She says she's the one I gotta face and in court she'll win the case.
If I should ever cheat or leave her for another.
I believe her when she says to me, oh Grey,
if I want to play around I'll play and though
you'll have to wait , don't fear I love no others
