

# Grimes, Night Music

You're just always make that heart die  
When I, when I said: Don't make turn away  
turn away,  
You're just always make that heart  
I've been feel, and I'm thinking  
You've been away, are you thinking?

In the mirror we are the  
In the movement

Tonight's the night, I'm waiting  
Tonight's the night, and I'm not feeling cold  
So strong, out to go, never let you  
Tonight's the night, I'm waiting  
Tonight's the night, and I'm not feeling cold  
So strong, out to go, never let you

You're just always make that heart die  
When I, when I said: Don't make turn away  
turn away,  
You're just always make that heart  
I've been feel, and I'm thinking  
You've been away, are you thinking?
