

Gromee, Love Me Now (ft. WurlD & Devvon Terrell)

this you get it
don't move till you ready
now ones gonna loves me
for the way that he love me now
hold on to your feeling
you'll know you're ready
now ones gonna loves me
for the way that he love me now

I know
I chased to burn the page that I close
now it about do it again
if I could ...
through the night
running to the sky
.. want to ignite
be careful to survive
.he ancient and loin....

this you get it
don't move till you ready
now ones gonna loves me
for the way that he love me now
hold on to your feeling
you'll know you're ready
now ones gonna loves me
for the way that he love me now

I got them..
I don't need it
I can tell you how many people
I don't wanna feed them
I'd rather be all alone
stay with people in my place
tell him
he's not quick
there's a mistake, mistake
to feel my passion
you can get my vision
you don't need to capture it
want you to know it's all love
you got to .. down

I've been down
I've been hurt

..
so tell me who gonna love me now
with all the things that we know now
I don't wanna caz I know myself
and I don't wanna quit until I ..

this you get it
don't move till you ready
now ones gonna loves me
for the way that he love me now
hold on to your feeling
you'll know you're ready
now ones gonna loves me
for the way that he love me now
