

# Gromee, RUNAWAY (ft. Mahan Moin)

The kiss by the Sun  
As a stare up into the sky  
Embrace your shadow  
'Cuz I feel your hand in mine

In I won't let go  
No, I don't let go

And here, in this moment  
You secrets turning to mine  
Lingering and fallin'  
'Cuz here's we come to live

So we won't let go  
No, I don't let go

Runaway  
Just Runaway with you  
You, you  
Where love is on the run

You can be the right  
Who internal night  
Your love is a light  
Who it sparks my life to  
All I wanna do

Your love is like fire, baby  
Hotter than the Sun  
You bring up my curtains as  
You're all I want

So baby, let's burn  
Burn, burn, burn

Runaway  
Just Runaway with you  
You, you  
Where love is on the run
