

# Guided By Voices, Key Losers

Oh darkness makes them cringe - perhaps caught  
Respectable - impeccable - not taught  
The key losers  
Not to trust in instinct - blame them  
No wait! don't tame them  
They will let you down every time, the key losers  
In the clutch - twice as much  
In the long run - final gun  
Down the stretch we couldn't catch  
The part-time players - the scrubs  
Consistently choking, the roach coach is smoking
