

Gus Gus (GusGus), Starlovers

I am in love with God
I am in love with stars
I am in love with something
Coming close from far
You are in love with God
You are in love with stars
You are in love with something
That'll tell you who you are
They need love
They need God
They need guidance from above
You are in love with God
You are in love with stars
You are in love with something
That'll tell you who you are
Love God
Love God and affection
You know exactly what it means
Still you're only in your teens
They need love
They need God
They need guidance from above
Still you're only in your teens
You know exactly what it means
They need love
They need God
They need guidance from above
Come together
Still you're only in your teens
You know exactly what it means
