

Guy Sebastian, Candle

I'm like ten thousand miles from you
And there's like ten thousand girls in view
Let's tryna save them with me
Get that drink on for free
Tryna get me to my hotel room
Back it up /3x
I ain't tryna do nothing
Back it up /3x
All I want is my woman

Coz they don't know the candle
To you /2x
You're my better handful
It's true /2x
Ain't nobody taking your place
You're the only body I praise
They don't know the candle /2x
To you

She got that dress on to show her curves
And she came backstage to do some work
I knew when she said hello
She was ready to go
Round her finger round my shirt
Back it up /3x
I ain't tryna do nothing
Back it up /3x
All I want is my woman
My woman

Coz they don't know the candle
To you /2x
You're my better handful
It's true /2x
Ain't nobody taking your place
You're the only body I praise
They don't know the candle /2x
To you

To you
Coz no one puts their hands on me
Like you
Nothing ever burns like your flame
That's why I wouldn't give you my name
Coz they don't hold a candle
No one holds a candle
To you

Ain't nobody taking your place
You're the only body I praise
Coz they don't know the candle /2x
To you
