

Guy Sebastian, How (Beautiful Life Album)

How, could he ever love you
The way I could
Oh and how, could he ever hold you
The way I would
If you only knew
Each night what I go through
While my heart is breaking
You're making someone else's
Dreams come true

CHORUS

I gotta know how
How does it feel
To be loved by you
I gotta know how
Just how it feels
To be touched by you
I've never said before
But I can't take it anymore

I gotta know how
Just how it feels
To be loved by you

I wanna live every way with you
Oh and I..
Wanna die the same day as you
I tried to advertise
And tell you through my eyes
And girl, I lost my pride
So long ago
I even sang a song
Just to let you know

I gotta know how
How does it feel
To be loved by you
Girl, you know
I'll never treat you wrong
I'll be there for you
I could stand a life time
In your arms
I'll be there for you..

Each night what I go through
While my heart is breaking
You're making someone else's
Dreams come true

REPEAT CHORUS X 3
