

Guy Sebastian, Just As I Am

So many people keep questioning
What's wrong with the world today?
The same people that see a guy

It's so hard sometimes to see the truth
When you're standing in the dark
Always thinking with your head
Instead of following your heart

Chorus:

So I live each day like it is my last
So I keep my feet on the narrow path
This life never gives you a second chance
I'm just trying to do the right thing
Trying to be a better man

I'll never be perfect, but I still gotta try
A guy must always fall before he learns to fly

That's why I'm trying to leave this place
Better than the day before
I won't stop
I won't clear
Until I reach my goal

And I know if we try
We can both see eye to eye
One at a time
We can change people's lives

Chorus

There's gotta be a better way
If we're gonna shed some love on the world today
We got brothers killing brothers
Nobody cares about each other
So we're going to take a stand
So their here with me

Chorus x2
