

# Guy Sebastian, Something Don't Feel Right

Last night I rode around your house around 8  
Lights out no ride, close gate  
I wonder why your hanging out late  
Are you out with your friends  
But I call to your phone  
No answer leave a message at the tone  
Im not trying to trip  
But its only the fact that I know you will call me back

Honey like you, might betray me  
Honey like you, and frustrate me  
You play me plainly  
Its happening more and more lately

## CHORUS

Something that I just cant put my finger on  
Trying to be specific when you do me wrong  
Baby I can feel it when you hold me tight  
Something don't feel right, something don't feel right  
How am I supposed to put my trust in you  
Every time I turn around im bustin you  
Baby I can feel it when you hold me tight  
Something don't feel right

You say your with you girl at the ?  
But I caught her I found her alone  
Im guessing that you didn't go alone  
im not stupid enough  
Believe your hanging out with your friends  
I see you your shotgun in advance  
Cos ive had enough  
No defence, in the end, guess im just playin it safe

## CHORUS

Honey like you, drive me crazy  
Honey like you, try to chain me  
Would you play me baby  
Wonder if you love or hate me

CHORUS x 2
