

Guy Sebastian, Story Of A Single Man

I never thought i would meet
A girl like emily
With her ocean eyes and her crazy smile
Suddenly she and me
Were talking about all them dreams of walking down the aisle

Should have known she would go
And leave me all alone
How could i believe i was the only guy
I wish that i could have seen
What was right in front of me
Its true, love makes you blind

Chorus:
Emily was meant for me
I thought we'd be in love for eternity
But the master plan
Had the upper hand
In a story of a single man
Tell me how this story ends

Let me tell you about sherilee
She brought me to my knees
cos physically she was the prototype
Always looking so heavenly
But her personaily was showing signs her head ain't right
She wouldn't stop calling me
Checking up on me everytime i leave
Started stalking me
She was popping up everywhere i would be
It's poisonous recipe
I know the only remedy is to make her just a memory

Chorus:
Sherilee was meant for me
I thought we'd be in love for eternity
But the master plan
Had the upper hand
In a story of a single man
Tell me how this story ends

I don't want another love gone wrong
Just another name within this song
I can't close the door
How will i ever know
If she's the one for sure

Chorus:
Who will be the one for me
Someone i can love for eternity
I know i don't understand
But there's a master plan
In a story of a single man
Tell me how this story ends
