

Gwen Stefani & Pharrell Williams, Shine (OST Pa

One thing about me I'll be there for the team
I'll do anything to protect my people's dreams
And if the earth just finds me wandering 'round
You know my soul will rise up and keep on shining

Imagine you're a bear
You know we're inside
You disappear into thin air
I saw they put up the missing sign
Reasons they go through
That only shows you how much they really care
How I wish I was that bear
So I could feel the same inside
Just shine

Shine
Hey!
/10x

So we're in a strange new land
In Paddington station
But you end up in good hands
In the fancy British nation
You were the chosen
You're not imposing
The Browns want you there
Don't you want to be that bear
With the red hat he wears that makes him shine

One thing about me I'll be there for the team
I'll do anything to protect my people's dreams
And if the earth just finds me wandering 'round
You know my soul will rise up and keep on shining

Shine!
When you were trying to get home
Shine!
When you don't want to be alone
Shine!
Look at yourself in the mirror
That's your way home
Shine! Shine! Shine! Shine! Shine!
When you were trying to get home
Shine!
And all your friends aren't home
Shine!
Look at yourself in the mirror
Shine!
That's your way home
Now go!

Everybody is the same inside
But you don't wanna go home
Just like a little bear was alone
Hey if he were right it ain't known

You just want to shine /4x
