

# H.I.M., Tears On Tape

Church bells toll  
Thunder roars around me  
I've been warned to prepare myself  
For the fall

I'm armed to the teeth with tender pain  
Of all yesterdays

Tears on tape  
I will follow into your heart  
Sketching rain from afar

Tears on tape  
She surrenders needle in arm  
While we dance into the storm

Darkness falls  
Settling the score with love for once and for all  
Soaked in blood I cry

I fear we're lost to the summer rain  
Lonely and afraid

Tears on tape  
I will follow into your heart  
Sketching rain from afar

Tears on tape  
She surrenders needle in arm  
While we dance into the storm

And for a moment there's no pain  
For once there's no more pain in your eyes  
And maybe we'll love, just enough  
To convince us to keep breathing on

Tears on tape  
Tears on tape  
I will follow into your heart

Tears on tape  
Tears on tape  
I will follow you, to your arms
