

Hailee Steinfeld & BloodPop®, Capital Letters

[Verse 1: Hailee Steinfeld]

Never was a leader
Never had a thing for fairytales
Not really a believer, oh-oh
Small voice in the quiet
Guess I never dared to know myself
Can my heart beat quiet?
No

[Pre-Chorus: Hailee Steinfeld]

But then there was you (but then there was you)
Yeah, then there was you
Pull me out of the crowd
You were telling the truth (you were telling the truth)
Yeah (yeah, yeah)
I got something to say now
'Cause you tell me there's no way I could have known
Nothing I couldn't do
Yeah

[Chorus: Hailee Steinfeld]

I want to get louder
I got to get louder
We 'bout to go up baby, up we go
We 'bout to go up baby, up we go
We're blowing out speakers
Our heart a little clearer
We 'bout to go up baby, up we go
We 'bout to go up baby, up we go

[Post-Chorus: Hailee Steinfeld]

For worst or for better
Gonna give it to you
In capital letters

[Verse 2: Hailee Steinfeld]

We put a crack in the shadows
And you tell me it's okay to be the light
And not to swim in the shallows
No, no
And I wanna get drunk with you
Only last or still, but you're taking me places
Holding me onto you
And we don't care who's watching us, baby

[Pre-Chorus: Hailee Steinfeld]

But then there was you
(but then there was you)
Yeah, then there was you
Pull me out of the crowd
You were telling the truth
(you were telling the truth)
Yeah (yeah, yeah)
I got something to say now
'Cause you tell me there's no way I could have known
Nothing I couldn't do (No, no)
Yeah

[Chorus: Hailee Steinfeld]

I want to get louder
I got to get louder
We 'bout to go up baby, up we go

We 'bout to go up baby, up we go
We're blowing out speakers
Our heart a little clearer
We 'bout to go up baby, up we go
We 'bout to go up baby, up we go

[Post-Chorus: Hailee Steinfeld]
For worst or for better
Gonna give it to you
In capital letters

[Post-Chorus: Hailee Steinfeld]

Gonna give it to you
