

# HAIM, Gasoline (ft. Taylor Swift)

You took me back  
But you shouldn't have  
Now it;s your fault if i mess around  
I took a drag  
But i shouldn't have  
Now i am coughing up like i  
Never smoked a pack

Gasoline, pretty please  
I want to get off  
But you're such a ttease  
Throw the keys back to me  
Go on and kick off your boots  
In tha passenger seat

[Taylor Swift:]  
I get sad, you know i get sad  
And i can't look past what i am sad about  
You did me bad  
Did me bad, Did me bad  
And i did it back  
did it back  
did it back  
you needed ass, well, what's wrong with that?

Gasoline, pretty please  
I want to get off  
But you're such a ttease  
Throw the keys back to me  
Go on and kick off your boots  
In tha passenger seat
