

HAIM, The Steps

so baby, when i m near you
you can't feel me
I am lightnin'
you used to come by
and sit down by my side
you would come in close
and take off all my clothes

Every time I think that I've been takin' he steps
you end up mad at me for makin' a mess
I can't understand
why you don't understand me
baby
and everyday I wake uup
I make money for myself
and though we share a bed
it don't mean that I need for help
do you understand?
you don't understand
you don't understand me
baby

all the ive
is growing sideways
you on't stop it
till it covers all my place

Every time I think that I've been takin' he steps
you end up mad at me for makin' a mess
I can't understand
why you don't understand me
baby
and everyday I wake uup
I make money for myself
and though we share a bed
it don't mean that I need for help
do you understand?
you don't understand
you don't understand me
baby

if I go right
and you go left
hey, I know we'll meet up again
and if you go left
and I go right
hoy, maybe that's just life sometimes

Every time I think that I've been takin' he steps
you end up mad at me for makin' a mess
I can't understand
why you don't understand me
baby
and everyday I wake uup
I make money for myself
and though we share a bed
it don't mean that I need for help
do you understand?
you don't understand
you don't understand me
baby
