It's not like I'm invisible  
You still wear me under your skin  
When we talk we don't talk at all  
Too weak to leave, too stubborn to give in

Who is gonna be the first to say a truce  
It's not enough that we should part can't stop fighting too

We don't let go  
We can't get close

I still need you and you still need me  
This tug of war  
Can't go on anymore  
Nobody wins from this misery  
Free  
Well oh can't you see  
I wanna be  
I want you to be free

It's not like she isn't lovin' you  
It's just that you can't be alone for too long  
I'd like to wish you all the happiness  
Maybe the truth is it'll kill me if you move on

Who is gonna be the first to say enough  
Who is gonna be the first one to find true love

We don't let go  
We can't get close  
I still need you and you still need me  
This tug of war  
Can't go on anymore  
Nobody wins from this misery  
Free  
Well oh can't you see  
I wanna be  
I want you to be free

Let it be Let it be  
Just a beautiful memory  
Everything that starts will have an ending  
Let it go Let it go  
Yeah cuz we both know  
This will only be over when we're free  
Oh when we're free  
Oh I know

We don't let go  
We can't get close  
I still need you and you still need me  
This tug of war  
Can't go on anymore  
Nobody wins from this misery  
Free  
oh can't you see  
I wanna be  
I want you to be  
Free  
I wanna be I want you to be

Oh can't we be  
Free  
Oh I wanna be free
