

# Halsey, Dominic Fike, Dominic's Interlude

Your eyes are fragile and timeless  
It's beautiful  
There's power in the words you whisper

He treats you cold and so mindless  
But he don't see the setting sun  
Your eyes are open when you kss him

You eyes are drawn to the wine list pad usual, the towers in your world are sinking  
And if you're looking for signs then  
You shpuld know  
There's power in the words you're thinking

Talk to your man  
Tell him he got bad news coming  
Walk on the Edge with someone new  
Talk to your man  
Tell him we made some more good Times loving  
You can take a Chance, come take my hand
