

# Hammerfall, Live Free Or Die

I am free like an eagle  
Spreading my wings in the sky  
Protecting the wings that are changing  
Therefore I must give the eye  
I know we must defend it  
From those who were taken away  
There is a price for this freedom  
Way more than we wish to pay

Nothing's free in freedom  
Pay the price  
There's no cost reduction  
To paradise

Live free or die  
Come and break the chains of terror []  
Live free or die  
Live free or die  
Come and shout it out and heed the freedom call

By the blood of my brothers  
I do solemnly swear  
To spread the gospel of freedom  
Even if nobody cares  
No way to alter the past times  
Rewrite our lost yesteryears  
Only one thing to remember  
That freedom smells nothing like fear

I'll ignite the fire  
Roll the dice  
Let us stand together  
Break the ice

Live free or die  
Come and break the chains of terror []  
Live free or die  
Come and shout it out and heed the freedom call

Nothing's free in freedom  
Pay the price  
There's no cost reduction  
To paradise

Live free or die  
Come and break the chains of terror []  
Live free or die  
Live free or die  
Come and shout it out and heed the freedom call  
Live free or die  
Come and break the chains of terror []  
Live free or die  
Live free or die  
Come and shout it out and heed the freedom call
